The screen saver comes with controls that allow you to adjust the wind speed from breeze to strong wind, display selected flags and their names and select the replacement time of flags too.. The background textures are of high quality, while also being animated The lighting is amazing as the few rays of sunlight that manage to pass through the fluttering flag seem realistic as well.. Filed under Flag screensaver 3d screensaver 3d flag Screensaver Screen saver Flag 3d.. It doesn't matter if it's because of current economic power, past historical achievements or the natural beauty that it boasts, you cannot help but feel a bit

patriotic.. Another thing which was noticed is the narrow selection of available flags Considering how easy it would be just to have the texture projected on the flags surface, this feature should have been the last one you might think would be lacking.
